CLASS RULES

FARM STOCK TRACTOR

- 3000 RPM max
- Speed limit monitored with sled operated track side display board
- Stock core injection pump
- No cut or altered tires
- Turbocharger allowed in all classes except 6000 lb. Special
- 20" maximum drawbar height

TOO HOT TO FARM TRACTOR

- 3000 RPM max
- No injection pump limit
- V-cut or front cut tires not allowed. Dressed or top cut tires allowed
- 20" maximum drawbar height

GENERAL RULES AND INFORMATION

- All pulling vehicles will be weighed, inspected, and drawbars measured.
- 0% weight tolerance. Must be at or below specified weight unless otherwise specified (decided before pull begins).
- A digital photo tach will be available for pullers to use before the pull begins. After the pull starts, the photo tach will not be available for use.
- The top one to three contestants in Farm Stock and Altered Farm will have high idle RPM checked immediately following the class at the end of the track. One tech official will operate the hand throttle and assure injection pump throttle lever is against high idle stop, one tech official will operate the photo tach. 50 RPM tolerance. Any contestant over 3050 RPM will be disqualified.
- Lost weights, parts, or excessive fluids on track will result in disqualification.
- Out of bounds (chalk line and beyond) will result in disqualification.
