GENERAL RULES AND INFORMATION

- One hook per tractor unless otherwise decided at time of Pull
- All pulling vehicles will be weighed, inspected, and drawbars measured.
- 0% weight tolerance. Must be at or below specified weight.
- A digital photo tach will be available for pullers to use before the pull begins. After the pull starts, the photo tach will not be available for use.
- The winning contestant in Farm Stock could have high idle RPM checked immediately following the class at the end of the track. One tech official will operate the hand throttle and assure injection pump throttle lever is against high idle stop, one tech official will operate the photo tach. 50 RPM tolerance. Any contestant over 3050 RPM will be disqualified.
- Lost weights, parts, or excessive fluids on track will result in disqualification.
- Out of bounds (chalk line and beyond) will result in disqualification.
